

BUTT MILLER Environmental Policy

Version 1.0 | 8th February 2024

Statement of Commitment

Butt Miller recognises the importance of environmental responsibility and is committed to minimising the environmental impact of our operations. We strive to integrate sustainable practices into our daily activities, contribute to the well-being of the planet, and comply with applicable environmental laws and regulations.

1) Key Objectives

A. Resource Efficiency

- Butt Miller will promote the efficient use of resources, including paper, energy, and water, by implementing measures such as double-sided printing, electronic document management, and energy-efficient technologies.
- Employees are encouraged to minimise waste and recycle material in accordance with local recycling programs and a variety of bins are supplied to facilitate this.

B. Carbon Footprint Reduction

- Butt Miller will work towards reducing its carbon footprint by implementing initiatives such as energy conservation measures, promoting public transportation or carpooling, and exploring options for renewable energy sources where feasible.

C. Sustainable Procurement

- When procuring goods and services, Butt Miller will consider the environmental impact of products and choose suppliers who demonstrate a commitment to environmental responsibility.
- Preference will be given to products with eco-friendly certifications and packaging.

Chartered Accountants

D. Green Office Practices

- Butt Miller will promote environmentally friendly office practices, such as the use of energy-efficient appliances, eco-friendly office supplies, and the reduction of single-use plastics.
- Employees are encouraged to turn off electronic devices when not in use and participate in office initiatives aimed at reducing environmental impact.
- All lighting is via energy efficient LED fixtures.

2) Compliance and Reporting

A. Compliance with Laws and Regulations

- Butt Miller is committed to complying with all relevant environmental laws, regulations, and standards applicable to our business operations.
- Regular reviews will be conducted to ensure ongoing compliance, and necessary adjustments will be made to policies and practices as needed.

B. Monitoring and Reporting

- Butt Miller will establish a system for monitoring and reporting on environmental performance.
- Regular assessments will be conducted to measure progress against environmental objectives.

3) Employment Engagement

A. Training and Awareness

- Butt Miller will provide training and awareness programs to educate employees about the importance of environmental responsibility and ways to contribute to sustainability efforts.
- Encourage employees to suggest and participate in environmental improvement initiatives.

B. Accountability

- All employees are accountable for their individual environmental impact and are encouraged to actively participate in the company's environmental initiatives.

- All employees are invited to report any environmental concerns or improvement ideas through designated channels.

4) Continuous Improvement

- Butt Miller is committed to the ongoing improvement of our environmental performance. Regular reviews and updates to this policy will be conducted to reflect changes in environmental best practices and the company's evolving commitment to sustainability.
